About The Cover Artist

RONAN

Ronan is 12 years old and in the 6th grade. Of course his favorite subject in school is paleontology, as he hopes to be a paleontologist when he grows up. He has mild scoliosis and came to Children's Hospital Colorado where his diagnosis was confirmed. He is stable and returns frequently to Children's Hospital for updated scans.

Ronan spends a lot of time building with Legos and creates some very intricate designs. His sports include basketball and soccer. He has a French bulldog named Rex. Ronan is a great cancer-sibling as he has learned to put his needs aside for his sister with cancer and does so beautifully.
